

Malawi College of Accountancy

Bachelor of Management Information Systems

Malawi College of Accountancy is pleased to inform Parents, Guardians, Employers, Business People and School Leavers that they will be launching a Bachelor Degree in Management Information Systems

The Programme

The Bachelor Degree in Management Information Systems is an undergraduate Degree that aims to give students the opportunity to gain current technology, business and management skills, as well as the understanding of the fast-paced world of technology with the organization and structure of business management. This is to be achieved through intensive training approach to be offered to the students.

Integrating hands-on and applied learning with theory, the degree is on the cutting edge of computer technology designed to deliver a transformative learning experience. It offers a better variety of attractive modules not offered in other universities/colleges degree programmes. This diversity produces well trained, well rounded computer professionals who should have both theoretical and practical understanding of the use and management of information systems and technologies.

By the end of the programme, graduates will be able to provide added value to their organizations in areas of IT/IS

Duration

The Course Duration is for 4 (Four) Years

Who is the Programme for?

- ✓ Individuals who wish to acquire Information Systems skills
- ✓ Information Systems and other IT practitioners wanting to upgrade their knowledge and skills
- ✓ Entrepreneurs wanting to pursue IS/IT opportunities
